| <input type="checkbox"/> Health Education/ Behavior | <input type="checkbox"/> EMT – Paramedic/ First Responder | |
| <input type="checkbox"/> Health Services/ Hospital Administration | <input type="checkbox"/> Health Information Systems/ Data Analysis | |
| <input type="checkbox"/> Nutrition - Dietetics | <input type="checkbox"/> Occupational Therapy | |
| <input type="checkbox"/> Public Health (General Studies) | <input type="checkbox"/> Physical Therapy | |
| | <input type="checkbox"/> Other – specify below | |

To set-up these professions in the Electronic Handbook, the following steps are necessary.

After entering the EHB, locate the Health Profession and Discipline – Setup page.

To add Health Profession and Discipline:

- Select the Health Profession category from the drop down menu. Lists are provided below for the Health Professions Categories and the available Disciplines in those categories.
- Select the first Health Profession Category available, Behavioral Health, and click LOAD DISCIPLINES LIST

Once you have the Health Professions displayed for that category, you may begin to select Disciplines. Below is the complete listing of all available health professions and disciplines for each of the 6 categories. For AHEC, the disciplines in **bold** are those recommended by the HRSA AHEC Branch as priority disciplines for AHEC’s to use.

- *It is important to note that selecting multiple disciplines in addition to those recommended will dilute the impact of AHEC in reporting. You will still have the original data and will be able to discuss other professions as needed for other purposes.*

Select the AHEC recommended disciplines and then click ADD.
