

## Health Centers Potentially Affected Under Proposed New Designation Criteria

\*On March 31, 2008, HRSA updated its analysis of the proposed regulation using the most current health center data available, 2006. Based on this analysis, at most, only 16 out of 1,001 health center grantees (1.6%) would have to include state or local data to seek to maintain their current designation status.

| State/Territory                | Grantees | Designated | Percent Designated | State/Local Data Required | Percent Requiring State/Local Data |
|--------------------------------|----------|------------|--------------------|---------------------------|------------------------------------|
| Alabama                        | 15       | 15         | 100%               | 0                         | 0%                                 |
| Alaska                         | 24       | 24         | 100%               | 0                         | 0%                                 |
| American Samoa                 | 1        | 1          | 100%               | 0                         | 0%                                 |
| Arizona                        | 14       | 14         | 100%               | 0                         | 0%                                 |
| Arkansas                       | 12       | 12         | 100%               | 0                         | 0%                                 |
| California                     | 103      | 103        | 100%               | 0                         | 0%                                 |
| Colorado                       | 15       | 15         | 100%               | 0                         | 0%                                 |
| Connecticut                    | 10       | 10         | 100%               | 0                         | 0%                                 |
